

# Setting Home Page Preferences

## Home Page

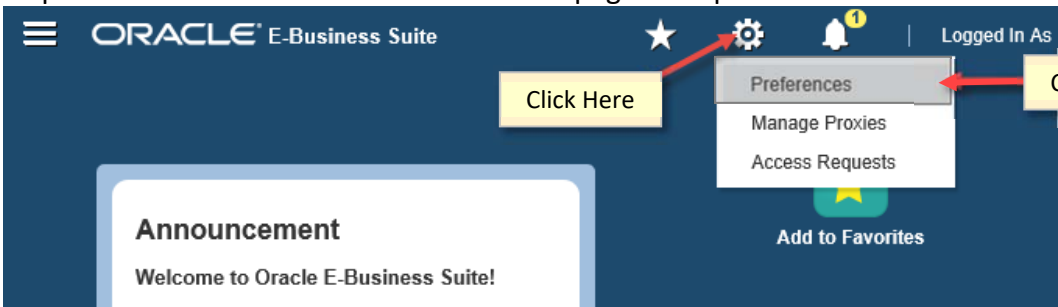

Once a user is logged in the Oracle E-Business Suite home page will open. This home page is your entry point to Oracle E-Business Suite. The default home page will adjust after the Framework Tree Preference has been set.

## Set Preferences

### Visual Preference

Users must set the Home Page Style to Framework Tree as their default visual preference. Use the steps below to set your default visual preference.

Step	Action
1.	<p>Click on the <b>Settings</b> icon at the top of the window and <b>Select Preferences</b> from the drop-down menu. The General Preferences page will open.</p> 

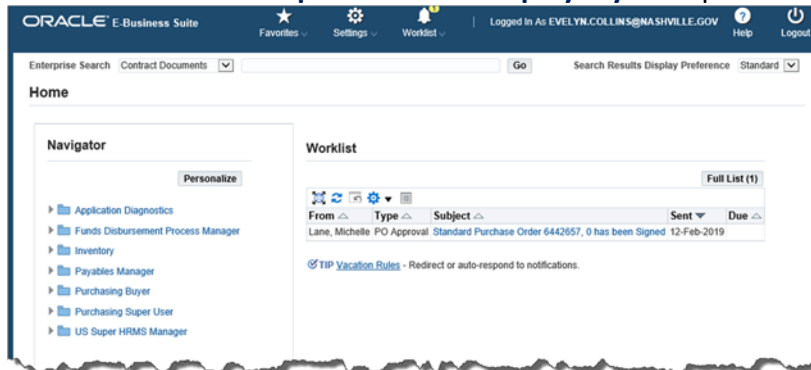

Scroll down to the *Visual* section to change the view of the home page.

## Visual

Home Page Style Framework Tree   
Page Header Display Style Both Links and Icons   
Top-level Menu Display Style Links Only 

Change your Visual Preference to the following:

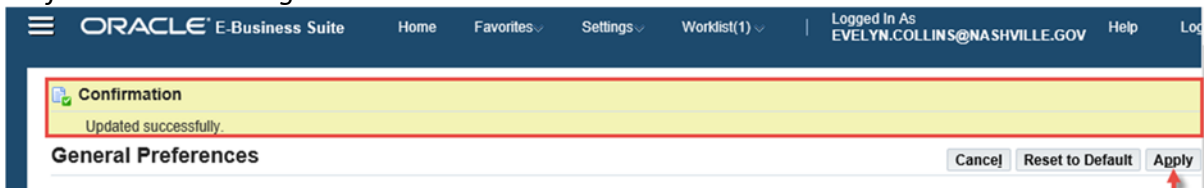

- Click on the **Home Page Style** drop-down menu and **Select** Framework Tree.
- Click on the **Page Header Display Style** drop-down menu and **Select** Both Links and Icons
- Click on the **Top-level Menu Display Style** drop-down menu and **Select** Links Only

Note: The Home Page Style shown above is set to Framework Tree with Icons and Links for the page header and links only for the top-level menu display.

Click the **Apply** button to apply and save settings. An *Updated Successfully* Confirmation will appear at the top of the page.

Note: If a user does not want to save changes Click the **Cancel** button to exit from Preferences. No changes will be saved.

Click Here

Click the **Home** link or **Home** icon to view the personalized Home Page.
